"WE'RE OFF TO SEE THE QUINTS!" —by M. Traver

It's Mary, the gay young matron, speaking. Bill, her husband, is getting the car out of the garage and in a moment they'll be heading toward Callander, Ontario, the Mecca that last year drew hundreds of thousands of tourists and (so they say) attracted \$25,000,000 to the province in money from baby-minded travellers. Mary and Bill are not going to be caught in the rush so they're getting away on an early start for

their Callander trip. And as Bill swings his chariot north, Mary can read aloud to him the engaging story on the Quints in this copy of The Star Weekly. And she can also read to him Agatha Christie's brand new detective serial, "The Incredible Theft", which starts in this issue. There's excitement and gaiety in this issue of The Star Weekly. Keep your eye on the road, Bill!

"Most of the girls simply love Palmolive for the face, throat and shoulders and for the bath," continues this attractive schoolgirl. "Its rich lather cleanses the skin so thoroughly, leaving a wonderful feeling of all-over loveliness."

LEARN WHY MOTORISTS EVERYWHERE ARE SWITCHING TO DODGE AND ARE SAVING MONEY RIGHT FROM THE START

THE "SWITCH" TO DODGE has become a Parade. Thousands who formerly owned more expensive cars switched to new 1937 Dodge cars and found greater luxury, easier riding, greater economy of operation—and they are proud to be seen in their Dodge cars anywhere!

Mr. Melvern F. Thomas, writes: "... we made a tour from Toronto to southern Florida... covering 4302 miles in all kinds of weather. We used 215 U.S. gallons of standard quality gasoline which is equivalent to 24 miles per Canadian gallon."

Sales more than Double

More than twice as many Dodge cars were purchased in the first 3 months of 1937 as in the same period last year. Owners like Mr. Thomas are the best Dodge salesmen—and there are thousands of them. Talk to a Dodge owner yourself.

Then go to your Dodge dealer and DRIVE a new 1937 Dodge. Note the luxurious comfort of

the "chair-height" seats. Hear how quietly a Dodge glides along—even on rough pavements. Dodge "hush-point" body mountings absorb road noises. 4 aero-type hydraulic shock absorbers together with Dodge weight distribution combine to make the famous Dodge Airglide Ride!

Years have proved the perfection of Dodge Hydraulic Brakes and all steel safety body. You need the protection of these safety features for yourself and your family.

"We've saved money with TEN/TEST—our fuel bills are less, considerably so, and the extra comfort is delightful. We're so pleased with the beauty TEN/TEST has added as well. Our rooms are so inviting, so cosy and so clean."

IT'S almost unbelievable, the benefits obtainable from TEN/TEST. ECONOMY, through fuel savings, which run into many dollars every year. BEAUTY, through the many beautiful effects that can be obtained, and COMFORT, through efficient and assured insulation.

TEN/TEST provides permanent, lifetime insulation. It is applied to the wall—not in the wall. It stays put, doesn't sag or settle around door or window frames like some forms of insulation. That's because it's rigid. It keeps out the cold in winter and the heat in summer. It's weather proof, draft proof and cannot rot.

And there's another advantage with

TEN/TEST. It makes home move livable. Untidy attics can be transformed into inviting extra bedrooms and dingy basements into cheerful lounges and playrooms. And at such low cost.

TEN/TEST will help you avoid costly building mistakes. It will pay you well to investigate its many advantages. Under the Home Improvement Plan, remodelling can be undertaken on terms to suit your convenience. Consult your lumber dealer and write for the TEN/TEST Book which contains many valuable ideas on decorating, modernizing and building. It is free.

ANY CAR EVER HAD . . . ANOTHER No. 1 FEATURE OF CANADA'S No. 1 CARS

"Best hydraulics I ever saw!" Zipping along at 40 miles an hour, Bill Burgess steps lightly on the brake pedal as the No. 1 Car crosses a line on the pavement. DUC-AUTOMATIC HYDRAULIC BRAKES BY HUDSON stop the car in record time. "Measure it," says the dealer. 69 feet, 7 inches! Much less than the distance allowed by law.

"Now, disconnect those hydraulics!" All set for an extra special test . . . the hydraulic brakes are purposely disconnected and away they go back over the same test route. "What, no brake at all?" "Wait and see!" Bill Burgess is now about to have an experience only possible in a 1937 Hudson or Terraplane. Up to 40 miles an hour again . . . flashing over the line . . . "NOW!"

"Two separate braking systems!" When Bill Burgess stopped the first time he used only the hydraulic brake system. "Typical of all Hudson engineering!"

"Only Hudson and Terraplane have brakes like these!" For your complete protection Hudson builds three separate brake systems into their cars . . . hydraulics that are big, powerful, sure-acting . . . an entirely separate mechanical system that operates from the same pedal and a hand lever parking brake conveniently placed under the cowl with finger-touch release.

Safest Stopping is but one of dozens of No. 1 FEATURES you'll find in any new Hudson or Terraplane. No. 1 in performance, endurance, records! You'll quickly understand why new . . . and discovering for themselves their No. 1 CAR!

Safer Feedings for YOUR BABY

with

Libby's

HOMOGENIZED

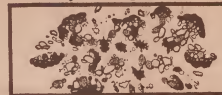

Baby Foods

HERE'S THE REASON

Imprisoned Nourishment is Set Free by Homogenization

BEFORE Homogenization
Whole food cells like this are found in strained foods. Nourishment is imprisoned by a tough wall around these cells. Baby is robbed of food essentials he needs to build a strong body.

AFTER Libby's Special Homogenization
This is what happens to a solid food cell when it is Homogenized by Libby's Special process. Notice how the cell is 'exploded'. All nourishment has been set free for quick, easy and complete digestion.

LIBBY'S Homogenized BABY FOODS may be fed MONTHS EARLIER

To protect babies against nutritional anemia many doctors recommend Libby's Homogenized vegetables as early as three months—weeks earlier than strained foods—to give baby the needed minerals. Your doctor will tell you when to start feeding Libby's Homogenized Foods to your baby.

Fewer Digestive Upsets with LIBBY'S Homogenized Foods

Babies are so little, so helpless—no wonder they're easily upset! No wonder mothers welcome Libby's Homogenized Foods! Their smoother, finer texture makes them much easier to digest. Clinically tested and approved by supervising specialists.

Mothers

—here is a great discovery which makes baby's solid foods finer... smoother... safer. Only Libby's exclusive method of Homogenization brings to mothers this better method of preparing baby's solid foods. Because scientific tests show that Homogenization makes baby's vegetables, fruits, cereals and soups far easier to digest, far more nourishing than the finest strained foods, and allows earlier feeding of a solid food diet—no wonder so many doctors recommend Libby's Homogenized Foods. Your doctor will tell you when you may begin to feed your baby Homogenized foods.

Your grocer sells them, priced so low that your baby may have the health benefits of these fine foods every day.

17 FOODS IN 6 TINS
LIBBY'S Homogenized Foods come in 6 combinations—it feeds in 6 tins! Three or more foods in a single tin! This makes it possible to feed a balanced diet of solid foods at every meal.

6 Balanced Combinations (Ask for them by number)

- 1 Peas, beets, asparagus tips.
- 2 String beans, tomatoes, pumpkin.
- 3 Carrots, spinach, peas.
- 4 Cereal combination—whole milk, whole wheat, soy bean flour.
- 5 Prunes, pineapple juice, lemon juice.
- 6 Soup—vegetables, chicken livers, barley.

SO ECONOMICAL AND EASY

All you do is heat and serve. Just open a single tin of Libby's Homogenized Food (instead of several) and in a little you have a balanced combination of three vegetables ready to serve.

BABY gets MORE NOURISHMENT with LIBBY'S Homogenized Foods

Scientific tests show that Libby's Homogenized Foods are easier to digest than the finest strained foods. Baby gets far more nourishment from Homogenized fruits, cereals, vegetables and soup. And he uses much less energy in getting the valuable vitamins, minerals and other essentials needed to develop strong bones, firm muscles.

In many Canadian homes there is a practically unused room which, with a little thought, could be transformed *at little expense* into a charming combination sewing room and spare room as shown above.

Start with the floor . . . with a bright, colourful, *easy-to-clean* Congoleum Gold Seal Rug. It will strike the key for the walls and drapes, and its modest cost will leave you extra dollars to round out the general scheme.

Visit your nearest good house-furnishings store and see the new Spring line of Congoleum Gold Seal Rugs. And remember — look for the Gold Seal shown here. It is affixed to the surface of all genuine Gold Seal Congoleum and guarantees you "Satisfaction . . . or your money back."
